GROUP 3600

Sir:

Pursuant to MPEP § 713.04, Applicants, through their undersigned attorneys, respectfully submit this Interview Summary as recordation of the substance of the telephonic interview that took place with Examiner Dr. Geoffrey Akers on June 17, 2003 with regards to the above identified patent application. Sean Wooden and Steven Pedersen represented the Applicants during the interview.

The Examiner is thanked for the courtesies and time extended during the interview. The following topics were discussed:

Claims 1 and 23 were discussed. Applicants agreed to submit proposed amendments, if feasible, to the independent claims that would describe the basic form of irreversible functions. The Examiner stated that such proposed amendments would likely overcome the current rejections.

In addition, the Examiner 1) invited the Applicants to submit the proposed amendments for discussion purposes, and 2) offered to extend a telephonic interview with the inventors and the inventors' attorneys, as necessary to advance the instant application toward allowance and issuance.

Should the Examiner have any questions or suggestions, Applicants respectfully request that the Examiner call Applicants' representative indicated below.

Date:

June 18, 2003

Respectfully submitted,

By: _____
